**Mosman Oil and Gas Limited  
("Mosman" or the "Company")**

**Winters-2 update**

Mosman Oil and Gas Limited (AIM: MSMN) the oil exploration, development, and production company, announces an update to the Winters-2 well, where Mosman owns a c23% Working Interest.

As previously announced, the well was recompleted in the Wilcox sand at a depth of 6,695-6,700 feet.

The well has now been flow tested with an adjustable choke and flowed at rates of 576-624 mcf/d (gross) over an 8 hour period on an 8/64 choke

The well will be put on production once installation of gas infrastructure is completed, anticipated to be later this quarter. The initial production rate is expected to be in this 576-624 mscfd (gross) range (110 to 120 boepd), subject to operational considerations.

**John W Barr, Chairman, said** "I am pleased to be able to report the successful test of Winters-2. As highlighted in the recent production update Mosman continues to build the Company's production base and we look forward to providing further updates in due course."

**Glossary:**

boepd	Barrels of oil per day of oil equivalent based on calorific value as opposed to dollar value
mcf/d	Thousand standard cubic feet per day
Gross Project Production	Means the production of BOE at a total project level (100% basis) before royalties (where Mosman is the Operator) and where Mosman is not the operator the total gross production for the project
